THE SANITARY BOARD.

The Sanitary Board met yesterday afternoon There were present:-Dr. Ayres, President Hon. Wong Shing, Dr. Cantlie, Mr. N. J. Ede,

and Mr. W. E. Crow. Secretary. The PRESIDENT said there was no business to discuss, but Mr. Crow had sent in a report on the grievances set forth in paragraphs A, B, C, taking a hammer with me, the only weapon and D in the report of the Commissioners appointed by the Governor to enquire into the cause of fever. He suggested that this should be read now and circulated among the members afterwards, who could then make any suggestions they wished.

The SECRETARY then read the report, which

In accordance with the terms of the Board's resoluto enbmit the following report on the grievances A B. C. D. alluded to in the report of the Commissioners appointed by H.E. the Governor to enquire into the cause of the fever prevailing in the Western Dis. trict of the city of Victoria in 1887.

The grievances quoted under this heading in the neti tion of the 23rd November, 1887, are chiefly confined to Inland Lot No. 795. This land is bounded on the north by Inland Lot No. 834, on the west by the Shektongtsui Nullah and on the south by Hill-road, and on the east by Inland Lot 833 With regard to the Squatters village on this pro perty, it appears from a return which was made and placed at my disposal ty the Registrar-General in December, 1887, that 442 people were then living on

Although I am convinced that the rievances quoted under this section have nothing to ... with the out break of fever that was the chief cause of the petition being sent to the Government, I agree with the petitioners as to the necessity of Inland Lot 795 lished in the Operial Gazette to which the new and frustrate the earnest desire of both the Chinese gard to the fact that the majority, if not all of these structures on the Lot are wholly unauthorized so far mentioned as exceeding this population are gaged in commerce. As the last the Government are concerned, it would seem desirable that an enquiry should be made as lo whether or not the Crown Lessee has complied with the conditions under which this land is held from the Crown, and in the event of non-compliance if the land can be resumed by the Government. If this cannot be done, there will, I fear, be no other alternative but to apply the provisions of section 17 and succeed-ing sections of the Public Health Ordinauce, 1887.

On only one occasion during the last year had a case been reported, and after a personal inspection of the ground I could not sanction interference of the part of the district inspector. It would require a combination of circumstances for this practice to be regarded as a public nuisance and a source of danger.

Complaints as to the manuring of plants have oc-desionally been received and the Inspector in charge of the Western District has frequently obtained convictions for a breach of section 22 of Ordinance 7 of Under the Public Health Ordinance, 1887, a Sanitary

THE TRADE OF CHINA FOR 1888.

The revenue collected by the agency of the Chinese Imperial Maritime Customs during the vear 1888 amounted to Hk. Tis. 27,167,000, as against Tls. 20,514,000 during the previous year. The Annual Returns have not yet been published; our figures are therefore taken from the Quarterly Returns. In the absence of the Annual anything like a complete summary of the trade caused by the Kowloon and Lappa stations not Queen's Road, I paid little or no attention to it. being taken over until the second quarter of until Mrs. Goulbourne became alarmed at its that year. The actual amount collected at these continuance. I then heard several blows of the stations during the first quarter of 1888 was Tls. 267,300, but in 1887, when opium was passed free through those stations in the corresponding quarter, a large quantity was so passed which would otherwise have been credited to the succeeding quarters. Making this deduction—we have still an increase of more than Tls. 2.000,000 over the amount collected in 18-7, or nearly ten per cent. In the three Northern portsback of the house where a balcony leads into Newchwang. Tientsin, and Chefoo-at the Yangtsze ports Wuhn and Chinkiang, and at Hoihow there have been small decreases, but all the other ports show an increase. At Shanghai the increase amounted to nearly Tls. 837,000, at Ningpo to over Tls. 333,000, at Amoy to Tis. 171.090, at Swatow to Tis. 175,000, and at

lekin. Taking the nineteen Treaty Ports; and excluding Kowloon and Lappa, the opium lekin amounted to Tis. 6.246.837 in 1838, showing an increase of Tls. 1.805.28 on the previous year. matter. The prisoner was lying on the ground while the opium duty also shows an increase of opium has risen from Tls. 3,483,362 in 1887 to have declined by about Tls. 17,000, the total for the present year being Tls. 415,859. There has, however, as noted above, been an increase in the import trade, and the falling off in the transit pass trade is probably due to the same causes as have led to a decline in the trade of Wuhn and Chinking, the districts served by these ports having suffered from deficient crops. The decline in exports is attributable to the continued falling off in the tea trade. For this it would seem that we must be prepared every year. On the whole, the figures of the year's trade, if they are not quite so high as may have been expected cannot be called disappointing. For the nineteen treaty ports the revenue of the last three years, exclusive of opium lekin, has been as follows:--1888, Tls. 15,875,187; 1887, Tls. 15,536,167; and for 1886, Tls. 15,144,678. ... It is hardly any use giving nove of this place for what we can say is simply a rep tition of the old story. Starvation everywhere for the poor people. It becomes monotonous, but for actual witnesses the scenes are simply harrowing Villages of from fifty to three hundred families, all dying for want of the commonest necessaries of life. Every winter there is more or less distress in this, perhaps the poorest province of China, but this has been the worst in the experience of the oldest resident. If any unusual or unexpected misfortune overtakes natives. they are complete'y done, for they have not the least notion of providing for a rainy day, and twenty-five years of prosperity are completely wasted on the generality of, say, servants in comfortable foreign employment, where, as compared to the pay received in the highest mandarin families, they are in clover. The advantages, as a gamble, and the best Chinese are given to the passion, so much so that it is considered right to allow it some outlet for ten days at new year time. there are events always taking place. Parents, wife, children, etc., die and have to be buried, or the youth takes a wife. This eventuality might have been put before alluding to the death. Anyhow, whenever any event takes place -- whether marriage, birth or funeral-all the savings, if there be any, are squandered away in presents or destivities. The chances are there are not any savings, so several months of future earnings are spont and the calf is eaten before its birth. Everything is pawned, and money is borrowed at 5 per cent, interest. "Maskee" is the order of the day. A woman, as we read in the official Gazette, even sellsherself to bury her mother. It is not a question of opium smoking or dram drinking or gambling, any of which passions, whether in China or anywhere else, will ruin anyone, but simply the ordinary events in a men's life. I know a "boy" who neither drinks, smokes nor gambles, and who is kept poor by marriages, births, and deaths. As for the daily labourer who can earn, in the spring or autima, when ships are discharging or lording much cargo, say 1,500 to 2,000 cash 14 to two times) =at the rate of Tls 4.50 a Tls 6.60 per month; when he has made enough for a pipe of opinm, he enjoys himself, his tattered garments notwithstanding. Generally the ordinary working Chinamin is improvident, and the knowledge brought before his eyes daily, that as he was singing instead of gathering during the summer, he will have to dance in the winter, and such winter, too, does not improve him. It is just, however, to admit that privations to the verge of starvation are borne with heroic patience. What the quality is that enables a Chinaman to bear with equanimity the greatest troubles that flesh is heir to, would be worth knowing. Is it simply patience or callogsness: An extraordinary instance occurred at the foreign hospital at Moukden, under the care of Dr. Christie. A. Chinaman presented himself for treatment, and brought his coffin with him. Said be:- "All that our own doctors can do is useless, and I am come to you, not because you can cure me, but just to show that I will not throw away any chance." The doctor replied, There must be a great operation which may cause death, but it may cure you." The patient submitted with, one cannot well say indifference. for the ordeal required beroism, and he had his coffin ready for the last emergency, having given the doctor the necessary security in case of death. The man was saved, and is a living monument of Dr. Christie's skill and medical knowledge, and of a Chinaman's patience.- Daily News Correspondent.

In addition to the several benevalent instituons lately opened by the Siamese authorities n Bangkok we now hear that very shortly the Government intend to establish a lunatic asyum, in the late Phys Phakdee's (Chew Sus Khoon Sua) large mansion and grounds. This property belonged formerly to the King, but His Majesty has now graciously donated the whole of it to the city, and it will be converted nto a luna ic asylum where many poor sufferng people may find a home. This munificent rift of His Majesty is valued at \$46,000, but bhilanthropy and charity have always characerized the Siamese as a nation, and their reputation is undeniably great in this respect, as s shown in this instance.—Bangkok Times. We understand that the Siamese Government ontemplate appointing a French lawyer as
